Attachments: actions with planned signature Dec 15 to July 31.docx; OMB significant actions projected to be signed in the next 6 months.docx

Flag: Follow up

Please find attached another report, this one showing all actions with projected signature between December 15, 2018 and July 31, 2019. This report has all the information included in the reports from yesterday, but for any action scheduled to be signed in that window (not just ones with deadlines). There are a lot of regional actions in this report; they were included for completeness but nearly all of them could be ignored because they are not Administrator signed.

The other attachment shows the OMB significant actions projected to be signed in the next 6 months. I'm not sure if you want to highlight all of them, but some were not included in your draft paper for the Administrator (e.g., methylene chloride, WOTUS Step 1).

I should note that rule schedules regularly slip by weeks or months. In light of that, **Ex. 5 Deliberative Process (DP)**

Hi Bill,

Thanks for the lists you provided yesterday. However, it seems to missing a number of actions I have on another ADP tracker list from Dec. 31st. That said, can you please generate a new report with signature in the milestone column for the next 6 months?

Brittany,

I'm writing to request your approval to submit the attached list of regulatory/deregulatory actions and associated estimated annualized costs/savings to OMB to support our FY19 regulatory budget under EO 13771 (the comment field in the attached file is just for your information). Based on information we have now about regulatory actions we expect to finalize in FY19,

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

I should also note that our FY18 regulatory budget is \$40 million in annualized savings, but through the end of July, we have a total of \$85 million in savings. It does not appear, based on what is at OMB now for review, that there will be additional final regulatory actions that will impose costs in FY18. Therefore, we could achieve our FY18 regulatory budget and have an additional \$45 million in savings. (This assumes that

Subject: Follow up on cost savings of CPP rule

Flag: Follow up

Hi Samantha. We can add this to the list as well. So if you are burned out, don't read this. I can explain it when we meet.

OMB issued a second guidance document on implementing the 2 for 1 EO: See: "Memorandum: Implementing Executive Order 13771, Titled "Reducing Regulation and Controlling Regulatory Costs" <https://www.whitehouse.gov/the-press-office/2017/04/05/memorandum-implementing-executive-order-13771-titled-reducing-regulation>

Ex. 5 Deliberative Process (DP)

Relevant text from OMB Memorandum:

"Except where noted in other portions of this guidance, costs should be estimated using the methods and concepts appearing in OMB Circular A-4. There are several types of impacts that, under OMB Circular A-4, could be reasonably categorized as either benefits or costs, with the only difference being the sign (positive or negative) on the estimates. In most cases where there is ambiguity in the categorization of impacts, **agencies should conform to the accounting conventions they have followed in past analyses.** For example, if medical cost savings due to safety regulations have historically been categorized as benefits rather than reduced costs, they should continue to be categorized as benefits for EO 13771 regulatory actions. Identifying cost savings, such as fuel savings associated with energy efficiency investments, as benefits is a common accounting convention followed in OIRA's reports to Congress on the benefits and costs of Federal regulations."

Subject: Office of Policy Program Project Slides for OMB Briefing

Hi Michael. Please find attached four slides covering the following program projects in OP: Regulatory Economic Impact and Analysis, Environmental Justice, Integrated Environmental Strategies, and NEPA Implementation. At the same time I'm sending these to you for your use in preparing the draft final slides, I'm also sending these to my office directors responsible for the work under each of these program projects, asking them to provide any last minute edits. Should I receive any additional edits on these, I will forward them to you as soon as possible. Also, given that you still have to add the budget table and header/footer to each slide, I recognize that you may need to do some editing of the attached

slides in order to make everything fit. Therefore, we ask that you please send your draft final slides to me and Robin Kime before finalizing them so we can review and make sure we concur with your edits. Thanks so much.
